INTRODUCTION

Making concept reality...

Australian Project & Consulting Services Pty Ltd (APCS) is an IT Services company specialising in Business Transformation and Project Delivery.

APCS is a proudly Australian owned and operated business with its headquarters in Victoria.

With a strong focus on customer service APCS provides a comprehensive span of project services ranging from business consulting and integrated solutions, through to project implementation and delivery.

APCS is an IT independent vendor company - we don't sell hardware or software. This allows us to make recommendations which are in the best interests of our customers.

APCS is committed to ensuring that our customers achieve maximum business advantage from their IT services and infrastructure.

At APCS we continually strive to exceed the expectations of our customers, whilst delivering enhanced, reliable and robust technical solutions.

OUR APPROACH

We turn your chaos into order...

We embark upon all our projects with a collaborative and partnership approach.

Our strong customer focus ensures the best possible outcomes are achieved for our customers.

We work with customers to develop cost-effective and appropriate IT solutions and services to meet your budget and business objectives by translating business issues, opportunities and long-term objectives into functional specifications.

Our proven methodologies align IT systems with a company's business objectives to deliver valuable end-to-end ICT services and solutions.

APCS recognises that each business has different priorities and constraints and flexible resourcing model enables us to deliver scalable services to suit your requirements.

On time... on budget...

OUR EXPERIENCE

APCS has partnered and worked with SME's through to global enterprise, to deliver a wide range of IT services across many industry segments.

We have demonstrable and extensive experience designing, deploying and implementing reliable and scalable solutions ranging from desktop through to full enterprise-featured networks.

Since our establishment in 2000 we have continually provided IT solutions which deliver tangible and measurable business outcomes for our customers.
